

Invoice Receiving Process

Trigger

Invoice arrives via email, portal, or physical copy.

Steps

- Collect invoice
- Log entry in system
- Assign invoice ID

Purpose

Ensure traceability of all invoices

Invoice Verification Process

Rule

Verify:

- Invoice number
- Vendor name
- Date
- Amount
- GST and GSTIN

Failure Condition

If data mismatch → send back for correction

Purpose

Ensure invoice integrity before processing

Duplicate Check Process

Rule

Search ERP for:

- Same invoice number
- Same vendor
- Same amount

Action

If found → reject invoice

Purpose

Prevent duplicate payments

Vendor Verification Process

Rule

Check vendor in Approved Vendor List

Action

- Approved → proceed
- Not approved → send to Procurement

Purpose

Ensure payment only to trusted vendors

Purchase Order Matching Process

Rule

For invoices > ₹50,000:

- PO must exist
- Vendor must match PO
- Amount must match PO

Failure

Mismatch → manual review

Purpose

Ensure purchase authorization compliance

Tax Validation Process

Rule

Validate:

- GST amount correctness
- GSTIN validity
- Tax rate applicability

Failure

Mismatch → flagged for review

Purpose

Ensure tax compliance
